

**MAT 152B – Section 5**

**Basic Algebra (Part II)**

Fall 2014

**Instructor:** Wynn Walker: phone: 541-4660x728, email:  
[wlwalker326@gmail.com](mailto:wlwalker326@gmail.com)

**Office Hours:** Math Success Center

Monday and Wednesday 9:45 AM - 10:45 AM, and 1:30 PM - 2:00 PM  
Tuesday and Thursday 11:45 AM - 12:45 PM  
And by appointment.

**Class Time and Location:** Tuesday and Thursday 3:30 – 5:20 PM, A250

**Textbook (Optional):** Beginning and Intermediate Algebra, 5<sup>th</sup> Edition, Elayn Martin-Gay

**Required Software:** It is required to have a software license to use the software MyMathLab in this class. The coursecompass course ID for this class is **walker39066**. You must have a valid e-mail address to use the on-line curriculum. Students have two choices. The first choice is to purchase the textbook from the bookstore. The textbook comes with the software license. Note: If you purchase a used textbook, it may not have a valid course access code. Be VERY careful when acquiring the text. The second choice is to purchase the license alone either from the bookstore or online at [pearsonmylabandmastering.com](http://pearsonmylabandmastering.com). The license gives you access to the textbook online. This is a more economical choice, but is only recommended to students who have online access and feel comfortable reading a computer screen instead of a traditional book. If you have already purchased an access code for Math 152A for this textbook, you may also use it for this class at no extra cost.

**For assistance with MyMathLab:** You may get help by calling 1-800-677-6337 during the following hours: Mon – Fri 5:00 AM – 5:00 PM & Sunday 2:00 PM – 9:00 PM. Online assistance is available 24 hours every day at: 247pearsoned.custhelp.com

**Calculators:** Calculators are not allowed in MAT 152B.

**Course Description:** MAT 152B is a continuation of MAT 152A. Topics covered will include factoring, solving equations with rational and radical expressions, systems of linear equations, and solving quadratic equations.

**Prerequisite:** A grade of C or better in MAT 152A, or appropriate skills demonstrated through the Math assessment process.

### **Student Learning Outcomes:**

1. Factor a polynomial.
2. Apply the four basic operations to rational and radical expressions.
3. Solve equations with rational and radical expressions.
4. Solve a 2 x 2 system of linear equations.
5. Solve quadratic equations.
6. Apply course topics to real world situations.

**Course Grade:** Your final letter grade will be based on the usual grading scale:

A 90-100%, B 80-89%, C 70-79%, D 60-69%, F 0-59%

The following items will make up the course grade:

Homework:	20%
Computer Quizzes	5%
In Class Quizzes:	10%
Exam1	15%
Exam2	15%
Exam3	15%
Final Exam ( <b>December 9<sup>th</sup> 4:00 – 5:50 PM</b> )	20%

You may check your grades at any point in the quarter by accessing the grade book in MyMathLab.

**Computer Homework** Homework is due by Mondays at 11:59 PM. It is recommended that you work on the homework each day with the goal of completing both your homework and quiz 24 hours before they are due so that you have time to respond to unforeseen emergencies or confusions. Feel free to consult a fellow classmate, a tutor, your instructor, or anyone else for assistance on the homework.

**Quizzes** There will also be five in class quizzes scheduled throughout the quarter. Quizzes cannot be made up.

**Computer Quizzes:** There are also quizzes that you will take in MyMathLab. The quizzes are designed to help you prepare for exams, and will be made up of problems that are very similar to the problems from your homework assignments. The quizzes may be taken as often as you would like before the due date/time.

**Exams:** Students are to bring a pencil and blank scratch paper to each exam. If you cannot make it to an exam (final not included), you need to take it up to 2 school days prior to the scheduled date with proper arrangements. The final must be taken by **December 9<sup>th</sup>**.

**Learning Disabled Students:** Students with disabilities who may need accommodations for this class are encouraged to notify me and contact the Disability Resource Center (DRC) early in the quarter so that reasonable accommodations may be implemented as soon as possible. Students may contact the DRC by visiting the Center (located in room A205) or by phoning 541-4660, ext. 249 (voice) or 542-1870 (TTY for deaf students). All information will remain confidential.

**How to Succeed in a Math Class:** I am often asked how to successfully pass a math class, and here is my advice:

- I) Come to every class session. Be prepared, and plan on participating.
- II) Do your homework. Remember that what I assign is what I consider a bare minimum. If you need more practice, do it. MyMathLab has dozens of extra problems for each section as well as sample chapter exams.
- III) Read the book.

IV) Make use of available tutors and my office hours. You will find tutors who know the subject matter in this course at the Math Success Center (MSC).

V) Do math every day. Math is just like everything else: if you don't practice, you become rusty.

**Technology in the Classroom:** All cell phones, laptops, headphones, MP3 players, iPods, etc, must be turned off and put away prior to the start of each class. No electronic devices may be used during and exams.

**Academic Dishonesty:** Academic dishonesty of any form will not be tolerated. Students caught cheating on exams will receive a score of zero on the assignment and the dropping of lowest quiz score will be forfeit. Students may work together on homework assignments (and, in fact, are encouraged to) as long as all students understand the material covered.

### **Course Schedule:**

The following is a **tentative** schedule. Things are very likely to change.

#### **September**

23	4.1, 4.2	Solving Systems by Graphing and Substitution
25	4.3, 4.5	Solving Systems by Addition and Applications

***Online homework 4.1, 4.2, 4.3, 4.5 and online Quiz 1 due Sept 29 11:59 PM***

30	6.1, 6.2	Factoring: Common Factors, Grouping
		Quiz 1 (4.1,4.2, 4.3, 4.5)

#### **October**

2	6.3, 6.4	Factoring Trinomials
---	----------	----------------------

***Online homework 6.1, 6.2, 6.3, 6.4 due October 6 11:59 PM***

7 6.5, 6.6 Factoring Special Forms, Solving Equations

Quiz 2 (6.1, 6.2, 6.3, 6.4)

9 6.7, Review Applications of solving equations using factoring

**Online homework 6.5, 6.6, and 6.7 and online Quiz 2 due Oct. 13 11:59 PM**

14 **Exam I** (4.1, 4.2, 4.3, 4.5, 6.1, 6.2, 6.3, 6.4, 6.5, 6.6)

16 7.1, 7.2 Simplifying, Multiplying, Dividing Rational Expressions

**Online homework 7.1 and 7.2 due October 20 11:59 PM**

21 7.3, 7.4 Adding and Subtracting Rational Expressions

23 7.5, 7.6 Equations with Rational Expressions and Applications

**Online homework 7.3, 7.4, 7.5, 7.6 due October 27 11:59 PM**

28 7.7, 8.4 Complex Fractions, Variation

Quiz 3 (7.1, 7.2, 7.3, 7.4)

30 8.4, Review Variation

**Online homework 7.7, 8.4 and online Quiz 3 due Nov. 3 11:59 PM**

## **November**

4 **Exam II** (7.1,7.2,7.3,7.4,7.5,7.6, 7.7, 8.4)

6 9.3, 9.4 Absolute Value Inequalities, Systems of Linear Inequalities

**Online homework 9.3, 9.4 due Nov. 10 11:59 PM**

11 10.1, 10.2 Radicals and Rational Exponents

13 10.3, 10.4 Simplifying Radicals, Operations on Radicals

**Online homework 10.1, 10.2, 10.3 and 10.4 due November 17 11:59PM**

18 10.5, 10.6 Rationalizing Denominators, Solving Radical Equations

20 10.7, Review Complex Numbers

**Online homework 10.5, and 10.6, 10.7 and Online Quiz 4 due Nov. 24 11:59PM**

25 **Exam III** (9.3,9.4,10.1,10.2,10.3,10.4,10.5, 10.6)

27 **Thanksgiving Holiday**

## **December**

2 11.1, 11.2 Completing the Square and the Quadratic Formula

4 Review for Final Exam

**Online homework 11.1, 11.2 and online Quiz 5 due Dec 9 3:59PM**

9 **Final Exam** 4:00 – 5:50 PM (NOTE THE DIFFERENT TIME)
